CREAM OF NEWS.

IF IT IS NEW AND TRUE THIS COLUMN HAS IT.

Trigg County Fire-Railroad Change-Descriptive Fire-Stealing Canvas-Died in a St-A Batch of Fines.

Merced Park's Coming Opening.

Merced Park, on West Seventh street, presents an exciting and cheering scene of bustle, activity and industry. Graders, teamsters, carpenters, brick-masons, hod-carriers, carpenters and laborers, are working with all their might in various portions of the beautiful grounds, in order to get the bicycle track and grand stand ready for use by the 15th inst., if the weather is favorable. All the stir and bustle, however, does not imply that any of the workers are building a Tower of Babel; on the contrary all is order and regularity, and in a few days the visitors will see a pretty artificial lake, an island at the west end of the park, and a commodious and imposing grand stand, beautifully decorated with gay festoons of bunting, banners and profusion of flowers. It will be surprising if the park is not inaugurated with one of the largest crowds that ever assembled in Hopkinsville. Hopkinsville must open herself to entertain her large crowd of visitors, and let the G. A. R.'s see during their coming visit one of the finest bicycle tracks in the State and by far the most elegant and handsomely equipped and conducted hotels in the south.

A Distinguished Woman's Opinion.

Miss Frances Willard says of Leland Powers, who will close the lecture season at the Tabernacle next week: "We had Leland Powers! Have you ever heard him? Well, you will, unless you hibernate or emigrate. He comes in full dress upon the stage, and undertakes to make you see the thirteen characters in David Copperfield. Without a bit of scenery or a particle of costuming, he reproduces David, Steerforth, Peggotty, Micawber, Heep and others, his voice, expression and action changing so completely while you look at him, that his metamorphosis seems a little less than magical. The great-heartedness of Fishman Feggoty; the manliness of David; the expansive oratory of Wilkins Micawber; all live before your eyes. The good is everywhere held up, and the bad denounced, and Uriah Heep's "meaching" diabolism excites the moral indignation that ought. One feels that Mr. Powers has discovered a new field, and one that gives what is good in the drama without its abominations."

Important L. & N. Change.

On or about the 20th inst. an important change will be made in the running of trains on the Clarksville & Graceland branch of the L. & N., it is understood. The morning train will leave Clarksville at 7:45, making the round trip by about 4 p. m. It will arrive at Graceland about 1 o'clock and leave shortly after 1 o'clock. Thus the present order of things will be reversed and the crew will have the night "layover" in Clarksville instead of Graceland. The change in business on this road has been very light for some time, but when the change is made it is believed that this line of the business will be greatly increased. By the new plan better connection will be made with the Ohio Valley, which will make it much better for through business also.

Nashville Grocery House Assigns.

Kirkpatrick & Co., wholesale grocers at Nashville, made a special assignment Saturday night to secure between \$160,000 and \$175,000 of indebtedness of which New York banks hold \$25,000, Hartford banks \$20,000 and Nashville banks \$49,000. The firm states that the assets assigned will pay the liabilities in full. Dullness of trade and slow collections brought on the crash. The firm is well known in this city, having sold large quantities of goods here through their traveling salesman.

Went to the Wall.

C. A. Cannon, a merchant at Dixie, Webster county, has assigned. Liabilities several thousand dollars, with ample assets, if dollar for dollar could be realized. Mr. Cannon was engaged in business at Solers for several years, and was quite prosperous while there. The general credit system is said to have caused his recent trouble. Every man who knows Mr. Cannon will regret to hear of his misfortune.

Descriptive Forest Fires.

Forest fires last week burned over about 3,600 acres of land connected with the Grand Rivers enterprise, 3,000 acres being east of the Cumberland river, and 600 acres being between the rivers. Three old log cabins were burned up and about 800 cords of wood also. The loss will amount to several thousand dollars.

COMING TUESDAY.

The G. A. R. Encampment of Kentucky Will Come Next Week.

Everything is now in readiness for the G. A. R. meeting next week. The various committees are attending to every detail, and arrangements have been made to decorate the houses along the line of march. This will form at 10 o'clock, with Polk Canaler as the officer in charge and the following aides: Mc. J. Davis, S. H. Harrison, M. H. Nelson, C. F. Jarrett, M. B. Brown, Jas. Allenworth and Frank Price.

The order of march will be as follows:

Mounted Police.
Band.
Commander in Chief and Staff; in carriages.
Commander of Dep't. and Staff, in carriages.
City Council and Officers; in carriages.
Visiting Comrades.
Drum Corps.
Confederate Veterans.
Local Post G. A. R.
Uniform Band K. of P.
Band.
Relief Corps; in carriages.
Company D, K. S. G.
S. K. C. Cadets.
Peerless Fire Company.

In the afternoon at 2 o'clock the delegates will meet at Holland's Opera House and transact the business of the day. At night, beginning promptly at 8 o'clock, the citizens will tender an open reception at the tabernacle to the visitors. The program prepared for the occasion is as follows:

Prayer.....Chaplain D. F. Kerr.
Address of Welcome.....Mayor F. W. Dabney.
Response.....Department Commander D. O'Riley.
Music.....Band.
Quartette.....Band.
Address.....Commander in Chief Thos. G. Lawler.
Chorus, National Hymn.....Public School Children.
Address.....Ex-Confederate.
Music.....Band.
Quartette.....Band.
Short Addresses.....Ex-Federals and Ex-Confederates.
Music.....Band.

Fancy Prices Rule.

Some fine leaf tobacco was sold on our market this week and prices were good. Several hogheads of good tobacco were sold, one brought \$12.50 and a number of them ranged from \$9 to \$11. Over 200 hells were sold, but with but few rejections. For good leaf, well ordered, the prices were quite satisfactory, but common leaf and lugs, in bad order were low, and where there was a rejection it was on this class. Receipts are booming and the indications are flattering for this market to have largely increased sales over any former year. The loose market is also active, but no quotations are available.

Fifty-five Dollars in Fines.

Business in the police court was brisk yesterday morning and over \$50 in fines were assessed against different parties. Mattie Foran, col. was fined \$15 and costs for keeping a bawdy house; Clarissa Hatcher, col. was also fined \$15 and costs for a similar offense. The two live in the same house. A fine of \$5 and costs was assessed against each of two visitors to said house, and a \$15 fine was also assessed against one of them for promiscuous with a woman of ill-fame.

An Assured Success.

We are glad to say that the Opera of Pinalore is an assured success in every particular. With pretty costumes, pretty girls, pretty music and musical talent culled from the ranks of artists of first class, standing the public will have presented to them on April 23rd the most complete performance, both musically and artistically, that has ever been their lot to witness. At the small price of admission—fifty cents—we predict that the Opera House will not even afford standing room on the night of the performance.

A Steamer Sinks.

The steamer I. T. Rhea sunk near Carthage, on the Cumberland river, Tuesday, and a number of sheep and hogs were drowned and nearly all the cargo was lost. A party of young people of Nashville were on board, but were saved. The boat was driven against the rocks by heavy winds and was a total wreck.

Died in a Fit.

Lucy Smith, an old colored woman, was taken with a fit at her home on First street last Tuesday evening, and died while in that condition. She was 60 years old and had been subject to epilepsy for several years, but recently she had been in better health and her "epilepsy" had not been so severe. She had been to see a neighbor Tuesday afternoon and on returning home she was taken with a violent spasm and died almost immediately.

MORMON ELDERS.

TWO OF THEM AT WORK IN CHRISTIAN COUNTY.

A Statement of their Objects and Methods Furnished by Eld. Walton. Will Remain in the County for Three Months.

Elds. Chas. E. Walton, of Monticello, Utah, and Geo. F. Carroll, of Orderville, Utah, two Mormon elders who have been preaching their doctrines in Hancock county, arrived here this week and will be in Christian county for three months. When asked for a statement as to their manner of working, Eld. Walton furnished the following article:

"If you will permit us we would like to publish in your columns an article setting forth our business in your county. We are ministers of the Gospel representing the church of Jesus Christ of Latterday Saints, nicknamed Mormons. We claim that we have the true and everlasting Gospel as taught by Jesus Christ and His apostles while they dwelt upon the earth—taken away in the time of the apostasy and martyred with the apostles and saints as predicted by Isa. 24, 5-6; Jer. 2, 13-16; 19-20; 22, 2; 2 Thess. 2, 7-12, and restored again to the earth with all his powers, gifts and blessings, as enjoyed in Christ's day by his followers. (1 Cor. 12) Restored by an angel as foretold in Rev. 14, 7-8; Daniel 2, 44, 45. We make a house in each county in each county presenting each family that will accept it, a Gospel tract treating upon the Gospel as we view it and teach it, and hold meetings wherever the opportunity presents itself. We discriminate against no one's belief or tear down any one's structure in order to build ours up, for we have plenty material of our own. We are not sent out particularly to make converts, but to get the Gospel before the people and let them judge for themselves. We are not out upon the nation, but are poured out upon the people, and are not on account of the wickedness. See Matt. 24, 14; Rev. 17, 26-30; 21, 10-28; Rev. 21, 17. And this Gospel of the Kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come, Matt. 24, 14. We are preaching the Gospel and leaving the result with the people and the Lord. We claim the privilege of worshipping the Almighty God according to the dictates of our conscience, and allow all men the same privilege, let them worship how, where or what they may. But, says one, have we not the Gospel? We have our churches and ministers? Yes, there are over 800 Christian denominations all claiming to be right, yet they are conflicting and antagonistic. Now the question arises in our minds, who of all the sects and denominations are right or are they all wrong, for Paul tells us, Eph. 4, 4-6. "There is but one Lord, one faith, one baptism, one God and one Father of all, who is above all, through all and in all, and in us." Common sense and reason tell us that there cannot be but one denomination right or else all are wrong, and the result is to come to a standstill. Now we are to know unless we investigate and take the scriptures as a guide and measure the different doctrines taught by men, and the one that comes nearest to the scriptures and must be the nearest right if not altogether right. If we have a doctrine or creed that will not bear measurement or a test is not worth anything and the sooner we get rid of it the better off we will be, if our salvation is of any consequence. Now, all we ask is to compare the doctrine we teach with the scriptures and let us see if we can by sound reasoning, logical illustrations and scriptural proofs, show to the world that we have some truth, and that we are not deceived and they choose to accept it, that is the right guaranteed to every American citizen.

Two travel as the apostles of old, two by two on foot promulgating the Gospel we have espoused without money and without price, depending upon the hospitality of the people for something to eat and a night's lodging. We donate our services for two or three years to the work of the Lord, and the faith we have in the Gospel we teach. We furnish our own clothes, tracts, books, and pay our railroad expenses. We get no salary or pay whatever. We endeavor to deport ourselves as gentlemen and as you wouldn't make a convert we endeavor to make a friend, and we think none the less of a person because they do not believe we are to convert and hold that a person should be converted to the principle before accepting it. Yours very respectfully, CHAS. E. WALTON. GEO. F. CARROLL.

A Trigg County Fire.

ROARING SPRINGS, April 8.—Mr. E. W. Brandon, of Roaring Springs, had his stable burned Saturday with two head of horses. The fire was caused by the explosion of a grist mill, stationed near his house.

ABOUT QUEEN VICTORIA.

These Stories That Are Interesting Concerning England's Sovereign.

For many years after her husband's death Queen Victoria would never consent to be photographed, save in very magnificent trim and with the palace consort's bust or portrait well in sight. Much livelier now that she is much older, her majesty to-day sits for artists, and some of her favorite jewels and lace have thus become well known to the public. The severely criticised ornaments bedecking the sovereign's head and chest on the Jubilee coinage may be recognized as studies from actual jewels much beloved by her majesty. Sir Edgar Boehm had a hard time of it with outsiders when those coins were first issued, but he was amply compensated by eulogiums falling from royal and imperial lips upon the charming way he had rendered that favorite necklace, brooch, and earrings.

The queen's money from the state is all paid up in advance to the 31st of the month, and so are all the annuities that are granted to the prince of Wales and the other members of the royal family, and Counts, the bankers, are the only persons who know how the royal accounts stand. The \$50,000 a year allowed for the children of the prince of Wales remains at the same amount as it was before the death of the duke of Clarence, and this money will continue to be paid till six months after her majesty's demise.

On each anniversary—or the annual celebration of the queen's wedding—the beautiful painting of the marriage of her majesty is brought into the dining room and decorated with white silk streamers. In this painting the queen's mother and the useful duchess of Sutherland, mistress of the robes, show to great advantage. The curtains also appear near the queen's shoulder, held at the "carry" by a state officer, the curtains or curtain is the pointless sword of King Edward the Confessor, considered an emblematic sign of mercy, and in the left hand background of the picture are two large burning tapers on the altar of the Chapel Royal, St. James, which were blown out by the archbishops of Canterbury and York immediately after the ceremony. These candles are still preserved, and will not be lighted again until required for a sacred ceremony, which, we trust, will not take place until all the young society people of to-day are bald-headed and have to wear wigs.

FARMERS IN CUBA.

Mostly All but the Owners of Great Estates Are Abjectly Poor.

Between the condition of the planter and that of all other agriculturists whatever in Cuba the widest difference exists. The laborer has nothing, never had anything and is happy in the knowledge that he never will have anything. The small farmer, the owner of a few acres, in this abject poverty stricken son of the soil that I have ever met. He lives in the poorest habitation known to civilized man, a hut made of the bark of the palm tree. Beside it the adobe dwelling of the Mexican is a palace. It has one room, a dirt floor, neither window nor chimney; in this the family live like cattle, subsisting upon the poorest of food, as poor as that the soil produces must go to pay the taxes. Children run about, guileless of the knowledge of clothes until 8 or 9 years old. Boys, education, the world, are things of which they have never even dreamed. It is true that there is an intermediate group between these people and the planters is a small class, it is thrifty farmers, and these are the ones who have been seen a while dwelling with red tile roof that marks the home of one who by some rare enterprise has become possessed of enough land to engage in cattle raising or fruit growing. The prosperous farmer, however, the class farmer is conspicuous by his absence, says James Knapp Reeve in Lippincott's Magazine. It is because there is no such middle class, because the country people are either the owners of great estates or else abjectly poor, that it is a mistake to speak of Cuba as a rich country. It cannot be so while the present conditions exist. But with such a combination of soil and climate as she possesses, the island is capable of great things. Money and enterprise are needed for the development of its resources, and these are not likely to be forthcoming while the present social and political conditions remain. If the islands were open to American enterprise as freely as our own territory is, a decade would suffice for the working of great changes.

QUEEN'S PRIVATE SECRETARY.
He Is Nothing More than a Mere Stockbroker's Son.

Sir Fleetwood Isham Edwards is the only member of the higher emage of the queen who is a bourgeois pure and simple. As a rule, Victoria's confidential advisers are of aristocratic or distinguished military connections. Sir Fleetwood was the son of a stockbroker, who lived and died, and was buried at Harrow, where some five and thirty years ago he had three sons in the school belonging to the school and what slighted body of Home Boarders. He entered under Dr. Vaughan, and left under Dr. Vaughan in 1858, and obtained a commission in the Engineers in 1863. It was at the Berlin congress—he was attached to the special embassy—that he gained the favor of the best of judges of men, the earl of Beaconsfield. Through him he was brought to the queen's notice, and in the year of the congress, 1878, he became assistant private secretary and keeper of the privy purse. Since then he has gone on from honor to honor. The pink of perfection, always well dressed and well groomed, he has about him something of the martinet, which seems almost inseparable from the successful sapper, and is not unwelcome to the highest quarters of the realm. He has a brother, also a soldier-secretary, Col. C. G. Edwards, private secretary to Earl Fitzwilliam.

Another Illustrious Gossip.
Those who may have hitherto believed that the vanity of the female sex was invincible should make a note of the fact that only one member of the Colorado legislature has refused to be photographed in a group, and that member, alas, was a woman.

LADIES

You are cordially invited to attend the Leader's opening

Wednesday, April 3,

At 9:30 a. m.

Our opening will continue for a week, thereby giving Ladies at a distance a chance to see the beautiful display of Handsome pattern Hats and Bonnets.

BUSINESS RELAXATIONS.

Flapjack-Gibbie is quite a talker, isn't he? Trade—Yes, but his hat will get down over his mouth.

Beggar—Have you a copper you can spare, sir? Carleton—Yes, you will find him in the kitchen making love to the cook.

Man in theater, to woman in front—Madam, I paid \$1.50 for this seat, and your hat—Woman, calmly—That hat cost \$40.

Plankton—I understand that you had to go to law about that property that was left you. Have you got a smart lawyer? Von Bloomer—You bet I have. He owns the property now.

"You paid \$25 for a horse? Great Scott! You can go to a street car barn and buy all you want for \$7.50 apiece!" "But this was a rocking horse for my boy. It has a genuine horse's hide."

"Hit am er good 'ting," said Uncle Eben. "Foh folks try ter be satisfied with dey kin un'tan." "Ef dah was less hypocritish 'goin' on an mo' baptism, dah wouldn't be so much trouble at de present 'time."

The end of a novel, compressed by the editor, owing to lack of space—"Otolator took a small brandy, then his hat, his departure, besides no notice of his pursuers, meantime a revolver out of his pocket, and lastly his own life."

IN FAR COUNTRIES.

The smallest coin in the world is the Chinese "cash," about equal to the twelfth of a cent.

The chief exponents of music in Japan are women. Most men would consider that they were making themselves ridiculous by playing, or singing in society.

Natural gas is reported to have been discovered in the bed of the Rio Platin, near Buenos Ayres. A bill granting a monopoly to the discoverer is before the congress.

The standard Chinese work on coinage is in twenty volumes, and Chinese money itself is not less bulky, as a string of cash weighing five pounds is worth less than twenty-five cents.

OFFICE IN SOUTH MAIN STREET.

ANNOUNCEMENT.

We are authorized to announce JUDGE JOHN PHELPS as a candidate for Circuit Court Judge in this district, subject to the action of the Democratic party. Election November 6, 1895.

Maj. John Phelps, of this city, is announced by authority to-day as a Democratic candidate for circuit court judge at the ensuing election. Maj. Phelps has frequently presided as judge pro tem and displayed unusual fitness for the position. He has had long and successful experience at the best bar in the district, is a fine judge of law, has a well trained legal mind and is capable of discharging the duties of the office in an able and acceptable manner. It has been more than 30 years since Christian county had the judge and as fully half of the business of the district is transacted here, it is proper that Christian should have the nomination this time. Unless there should be other local candidates Maj. Phelps will of course carry this county without a contest and would need only three more votes to secure the nomination.

The Murray Ledger of this week says: "The circuit judge's race will soon be made up. We have the first announcement to-day and more will follow soon, from 'both sides de creek.' While Judge T. P. Cook has not formally declared himself it is generally known that he will be in the race, and we are reliably informed that his announcement will appear in the papers next week or the week following. It's going to be a pretty and interesting fight."

Rev. Lansing, a Boston preacher, accused President Cleveland of being a drunkard and when Grover heard of it he called the minister a liar. There was much discussion in the papers and Rev. Lansing finally made a public retraction of the charge.

The Republicans are likely to exchange the eagle for the elephant as a party device when they hold their convention next month. There is too much of a reference to an allusion in the suggestion to make the coon the voting emblem.

Ask any traveling man and he will tell you that Hopkinsville is one of the best and most prosperous cities in Kentucky. Good Democratic government has done much for the metropolis of Southern Kentucky within the last five years.

Gor. J. H. Marvill, of Delaware, died this week and the speaker of the senate W. T. Watson has taken the oath as governor. Senator Records, Dem., was elected speaker of the senate. The deadlock in the senatorial election still continues.

Joplin finally came out on top in the fight over the Elizabethtown post office. The president has again appointed him to succeed Mr. Helm. A recess appointment lasts until action is taken by the next senate.

Ed. Whittemore, of the Grand Rivers Herald, rises to vote for the Atlanta exposer. See here, young man, didn't you see enough on that Chicago trip?

Judge M. D. Brown is at home from another trip in the interest of his candidacy for lieutenant governor. He is very sanguine of success, but will continue an active canvass until the convention.

Gen. Wm. Mahone, once regarded as one of the richest men in Virginia, has made an assignment and will not pay out.

The Democrat carried some of the smaller cities in the municipal elections in New Jersey Tuesday.

Gov. Clarke cannot now expect to be one of the great men of Arkansas.

Silver continues to advance about one cent per week.

The press boys are all pleased with the proposed Atlanta trip.

WITH INTENT TO PLEASE.

"Why has Spencer quit going to church? Is he out with the new minister?" "Yes, he doesn't like his sermon; he keeps everybody awake."

Flypods—Do you suppose Scribble gets paid for his jokes? Flypods—He certainly must. They show of themselves that they can't be written for fun.

"I wonder," panted the turkey, glancing hastily over his shoulder at the pursuing farmer—"I wonder whether he wants to get ahead of me or abreast of me."

"Misses—I think you handle those fine china dishes very carefully. Domestic—Don't worry, mum. They are so light that they wouldn't hurt even if I dropped them on my toes, mum."

Husband—Oh, give me a real! You remind me of a parrot. Wife—Why? Because I talk so much. I suppose. Husband—Not at all; because you never know what you are talking about.

"There is no doubt," said Mr. Dolan, "about there being" was great advantage in being born in this country."

"It always was," inquired Mrs. Dolan. "It was yes," he replied as a steamship ticket order."

Philosopher—The only thing that can make any man rich or poor, perfectly happy or sad and love cost not a penny. Practical Man—True, but keeping the loved one in clothes costs like the Old Nick.

Dillaway—Talk about your aristocratic descent! Why my father often had 10,000 men directly under him. Caraway—Ah! A general Dillaway—Well, not exactly. Caraway—A wholesale contractor? Dillaway—No, an acrobat.

"Why," asked the philosopher, "why is it that a man—the noblest created object—why is it that a man should have such dominion of his ability to win a woman's affection, when he considers the success in that line of a pop-eyed, pudding-shaped, prettified pug dog?" But the assembled listeners answered him not.

Clerk—I am to be married shortly. Couldn't you manage to increase my salary a little? Employer—Couldn't, really. But I'll tell you what I'll do for you. I'll shorten your hours during the first three months, so that you can spend your evenings at home, and after that I'll lengthen them again, so that you will have an excuse to get away.

SHORT SELECTIONS.

In the monasteries of Mount Athos, the monks never cease, day nor night, relieving each other every two hours.

A lady bicyclist of Sydney, Mrs. E. A. Maddock, in company with her husband, has taken a 50-mile spin, covering 100 miles in six days.

Statistics have been gathered East and West showing the proportion of women to men in the churches. It averages about 100 women to 100 men, but in the Episcopal church it has been recognized for a long time.

May 15, 1895

There will be sold at public auction 200 desirable town lots in Kuttawa, Lyon county, Ky. Terms, 16 cash, balance in five equal yearly payments. The best opportunity ever offered for securing a home or for further information address Sam C. Molloy, agent for Chas. Anderson, Kuttawa, Ky.

The American Harrow Co. have just received two car loads of cultivators.

DEATHS.

WHITE—Mrs. J. S. White, of Cerulean Springs, died Tuesday, after a long illness.

CABANIS—Dr. T. E. Cabanis, whose leg was broken last week, near Clarksville, died Monday of lockjaw. He was 38 years old.

Notice to Farmers.

Before buying a cultivator farmers should see the New American Harrow. It is simple of construction, easy to adjust and operate; light of draft and made of the best material. It is economy to buy the New American, besides being the best cultivator on the market, it is an excellent hand ground harrow and soil pulverizer. American Harrow Company is now located at Hopkinsville, Ky., and we have on hand two carloads of these combined cultivators, which we will be glad to exhibit and test to every farmer in Christian county.

G. C. KELLGRO, foreman for American Harrow Co., Detroit, Mich. See testimonials.

CASEY, Ky., April 8, 1895.

American Harrow Co., Detroit, Mich.

GENTLEMEN—I bought one of your New American cultivator and harrows, and from the first I have been able to believe it to be the best cultivator I ever saw, and as a harrow for hard ground nothing equals it. It is also excellent for pulverizing soil.

Yours truly,

T. L. GRAHAM.

Dear Sir—Your Mr. A. L. Kellogg put up one of your New American cultivator and harrows combined. Have had sixteen years experience in handling cultivators and farm implements and after a thorough test and careful examination, I am prepared to say it is the most perfect tool of the kind I have ever seen. It is well and strongly built, simple in construction and is easily handled, and is under thorough control of the operator at all times. I am sure anyone capable of handling a cultivator can operate one as well as the strongest man.

Respectfully,

J. B. WALKER.

April 8th, 1895.

The Only

Great and thoroughly reliable building-up medicine, nerve tonic, vitalizer and

Blood Purifier

Before the people today, and which stands preeminently above all other medicines, is

HOOD'S Sarsaparilla

It has won its hold upon the hearts of the people by its own absolute intrinsic merit. It is not what we say, but what Hood's Sarsaparilla does that tells the story:—

Hood's Cures

Even when all other preparations and prescriptions fail.

"I was taken with a pain in my right side which ran down into my limbs and my ankles swelled and broke out in running sores in seven different places. Since I have used Hood's Sarsaparilla the sores have healed and I have gained fifteen pounds in weight."

JOHN HARRIS, Prestonsburg, Ky.

Get HOOD'S

Hood's Pills are laxative, mild, effective. All Druggists, 25c.

AROUND AND ABOUT.

NOTHING BUT NEWS FOUND IN THIS COLUMN.

A Condensed Account of the Latest Happenings, Tensely Told for Busy Readers.

The Louisville Star has this to say of the display of Nantz & Neuner at the recent flower show: "Language falls the writer when it comes to the task of describing the large display of Messrs Nantz & Neuner, our leading florists. Their display was the product of the largest nurseries in the state, situated at St. Matthews, Ky. The display generally and separately was one of the best at the show. Their cut flowers were superb specimens, especially the white La France, Catherine Mermet, Kaiserin Augusta, American Beauty and Maréchal Niel. The collection of potted plants was also a notable one containing many magnificent specimens. Messrs Nantz & Neuner are the largest growers in the state, and their customers in the South are numbered by the thousands who buy their plants and seeds from them every year."

Gen. T. A. Harris died Tuesday morning at his residence, Grove-shore, Ponce de Leon, Va. He had been critically ill for some time and the end was expected. He leaves a wife and son. He was sent from Missouri as a member of the Confederate congress, in which he distinguished himself as an able speaker. Just after the war he was editor of the New Orleans Times-Democrat and did much to build up the paper. He was assistant secretary of state in Kentucky during the administration of Gov. Blackburn.

The anxiously awaited decision of the United States supreme court in the income tax was rendered Monday by Chief Justice Fuller. The court knocked out the law so far as it taxed incomes derived from rents and also from state, county and municipal bonds. By a tie vote of the court the law was sustained in other respects.

Mrs. Henry Burgess, of Hebron, Ind., who has been unable to take nourishment for forty days, died Monday night. During this time she only drank a cupful of water. Before she was sick she weighed 180 pounds, and at her death only 65 pounds. Her case baffled all the skill of physicians.

Gov. Clarke, of Arkansas, and Representative Jones met in each other's law office one day this week and the governor tried to draw a gun. The row was over the charge of bribery in the legislature, which Jones claimed the governor instigated.

Ex-Gov. James L. Kemper, of Virginia, died Sunday of heart trouble, aged 72 years. He commanded a brigade in Pickett's division of the confederate army during the civil war and was a lawyer of the highest class.

Rae Phelps, of Bowling Green, was captured in Guthrie, O. T., last week and returned for trial. Phelps was indicted in 1888 for horse stealing, but fled and has been at large for seven years. He is now in jail and will be tried at the next term of circuit court.

The Board of Equalization will give a hearing April 13 to delegations from Christian and Warren on the 19th to Callaway and Davies; on the 24th to Trigg, McCracken and Webster.

The Kentucky Knights of Honor are to state convention at Louisville this week. A monument of J. A. Demoree, founder of the order, was unveiled at Cave Hill.

The receiver of the O. V. railroad reports for the month of February total receipts \$27,740.73, total expenditures \$20,102.53; net profit \$7,638.20.

Jacob Swinforth, the Rockford, Ill. "Messiah," is being sued by a husband for \$50,000 for alienating the affections of his wife, who entered Swinforth's "Heaven."

Twenty-three out of twenty-five miners working underground at Whatcom, Wash., were killed by an explosion of fire gas.

W. Jennings Demoree, the well-known New York prohibitionist, is dead after a week's illness, was proprietor of Demoree's Magazine.

The five Seventh Day Adventists convicted and jailed in Rhea county, Tenn., for working on Sunday have been pardoned by Gov. Turney.

The whisky trust has reduced the price of liquor two cents a gallon, but the decline will be hardly perceptible in a fifteen-cent drink.

Wm. Meade was killed and James Collier perhaps fatally injured by a falling tree in a mountain county.

Miss Faithful Higgins has willed 200 acres of Mason county land to the Christian church of Kentucky.

The Clarksville chain gang is not at work on the Evansville road, several miles from the village.

An eight-month-old infant of Mrs. Nimrod Lang was burned to death while alone in the house, near Paducah.

Apache Indians are on the war-path in Arizona. White people are alarmed.

W. O. Weir has started the Calloway News at Murray.

The Auburn Advocate, with Jno. B. Gaines as editor, will appear next Saturday.

Hugh Mulholland on trial at Paducah for forgery, was acquitted.

HERE AND THERE.

In our last issue we gave space to the report of Miss Katie McDaniel, county superintendent, made to the fiscal court. The report contained so much information about the schools of the county, that it was given in its entirety. It contained blank spaces for the number of pupils present on days of recitation and the number of recitations held. These blanks should have been filled with 4,889 pupils and 731 recitations. As stated in her formal report the superintendent's office has been repainted, papered and refurnished throughout until it is now as neat as a new pin. The desks, carpets, and chairs are all new and the visitor would scarcely recognize the dingy old room in the present bright and cozy apartment.

Moth balls at Armistead's. Miss Hattie Brasher, of this city, who went to Prof. Draughon's school at Nashville about fourteen months ago, has made quite a success in the line of her studies. She is not only a good bookkeeper but an excellent stenographer and typewriter. Last year she secured a position at the Nicholson House, that paid her well and for the last several months has been employed by the legislative investigating committee at \$5 a day. She has been enabled to secure these lucrative positions through the aid and influence of Prof. Draughon, who guarantees positions to all his graduates.

Dr. E. N. Fruit, dentist, office over City Bank, Hopkinsville, Ky.

Dr. Sam J. Baker, specialist, diseases of Eye, Ear, Throat and Nose, Eysensted with finest French trial case made free. Spectacles furnished. Office over Wallace & Telford's drug store, Lady attendant. Hours 9 to 4.

Powers is our last lecture for the season. There will be no complimentary lectures issued for this season. We have issued over 400 this season.

W. W. Ware, Pres.

Don't fail to hear Leland L. Powers, the great impersonator of characters at the tabernacle Wednesday, 17. Admission 50 cents, children 25.

Moth balls at Armistead's.

Dr. A. P. Campbell has resumed his practice and also has secured the right to extract teeth by the painless process. Office over Bassett & Co's.

The grand open concert at Cook's Park, Evansville occurs Sunday afternoon, April 28th. Several from this city will attend.

FORRENT, on South Virginia street a desirable place, house of 8 rooms, large yard and garden and all kinds of fruit. W. W. Ware.

Why buy inferior farm implements when you can get the New American?

The Baptist church has for sale a large church organ in good condition. It cost about \$500 and can be had for \$100. It is the one used before the pipe organ was bought. Call on Bailey Waller and see it.

In the fourth week of March the earnings of the L. & N. Railroad Company amounted to \$526,293, which was a decrease of \$24,374 from the corresponding week of last year. For the entire month of March the earnings were \$1,506,290, a decrease of \$62,209 as compared with March 1894.

The New American is the best corn and tobacco cultivator yet made.

Read the advertisement of Mr. T. L. Graham's breeding stock in another column. His horse and jack are both first-class animals.

Before buying a cultivator farmers should see the New American.

A representative of the Evansville Courier was in this city this week selling the 25 cent edition of Coin's Financial School. Many copies were disposed of.

Pure insect powder at Armistead's.

Fort & Scales is the name of a new Clarksville law firm.

Hopson Bros., of Hopson, Ky., have opened a branch store at Wallonia, and Mr. W. J. Hopson will have charge of the retail stock.

Fresh flower seeds at Armistead's.

Elder Madison Wright, of Nashville, will preach at Hill's Chapel Sunday.

The Hopkinsville Steam Laundry has just received a patent lace curtain stretcher and lace curtains can be laundered and laid to new 50 cents per pair.

Hopkinsville Steam Dye Works has an experienced dyer and can give you as good work in cleaning and dyeing as you can get anywhere. Call and get prices.

Hopkinsville Steam Laundry does work for thousands in Tennessee and Kentucky, can we not do yours? All orders receive prompt attention, and satisfaction guaranteed.

Mrs. A. M. Wallis has bought out the stock of groceries at No. 211 South Main street. Mr. Ann M. Wallis will have charge of the house and will be glad to have his friends call and see him. He promises the freshest of goods, lowest prices and prompt delivery.

Vitalis, double strength, for sale by druggists.

Diamond dyes at Armistead's. For a hard ground harrow, a sod pulverizer and for rebreking tobacco ground the New American is indispensable.

Awarded Highest Honors—World's Fair.

DR. PRICE'S CREAM BAKING POWDER

MOST PERFECT MADE.

We Are Advertising.

Pyle & Renshaw, The old reliable Furniture dealers and undertakers. Up stairs in Henry block Hopkinsville, Ky.

And so Grover has gone a fishing. And we've heard from old Japan: she's giving China a licking. But we're still at the same old stand. If you doubt it, come and see for yourselves. And examine our shop-made furniture and be astonished at the low prices we are selling it for.

Decorate your store and your residence at a small expense by buying your flags and bunting at E. Frankel's.

Last Monday night burglars broke into W. R. Long's liquor store, and cut into his desk and attempted to break open his safe, in which they were unsuccessful. They, however, carried off a few cigars and a jug of whiskey and a lot of loaf sugar.

These fellows seem to be good judges of liquor, for they carried off a white jug containing J. W. Harper's whiskey which is the best made. For Sale by W. R. Long, Hopkinsville, Ky.

Flags, Flags for G. A. R.

Flags and bunting cheap E. Frankel's.

Full supply of Flags and Bunting at E. Frankel's.

Buy your flags early and avoid the rush. Don't put it off until the last moment. I have all sizes and the cheapest. E. Frankel.

Good crowds have been in the city every day this week and the merchants are having a nice spring trade.

BUGGIES.

Just received a full line of the latest styles in Buggies, Surreys, Phaetons, Traps and Carts ever seen here. Prices to suit the times from \$30.00 to \$150.00.

HARNESS.

The largest and most complete line in the city, ranging in price from \$5.00 up. Wagon Harness at all prices.

DEERING BINDERS.

These are hard times but this only makes the farmer more careful in his buying. As a result our Ball Bearing Pony Binder is very much in demand. You only want two good horses to pull this, and they can pull it all day.

BICYCLES.

Bicycles are now in reach of all. Victors, Columbias, Stearns, Syracuse and Eclipse are the best. Will sell on installments. Have a splendid wheel for \$60.00.

MAJESTIC RANEGS

makes in home and cure dyspepsia. Get you out early to work and keep you with plenty of hot water day and night. Use Fertilizers, make big crops and rest your soil. Armour, National, Horseshoe, Homestead are the pure brands. We have already sold a car load of Junesville disc cultivators.

Forbes & Bro.

New Spring Goods

We have opened for inspection our complete assortments of new Spring Goods. Never before have we been able to offer so many inducements in either style, variety or price. . . .

Bran New Patterns

That cannot be found at any other house in the city. Don't wait for the Spring rush. See our goods and get prices. . . .

Carpets.

We Open

The Spring Trade with a superb stock of first-class Dress Goods, Trimmings, etc., at prices that are lower than ever before. Goods cheerfully shown.

C.M. LATHAM

Novelties

For The Children.

We have the most complete line of

Junior's aged 3 to 7 years, nicely trimmed and Braided, **\$1.50 to 5.00**

Reefer's aged 3 to 8 years, beautifully made and trimmed, **\$1.50 to 5.00**

Suits ages 4 to 15 years, all wool, never-rip-seam **\$2.00 to 6.50**

STAR-WAISTS best on earth, seam and buttons warranted **50 to \$1.25**

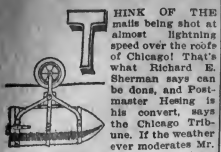

Hyperion-Windsor, the latest New York Craze. Yatch, Tennis and Bicycle Caps, Sweaters and Bicycle Hose.

COX & BOULWARE.

WORLD'S PROGRESS.

AS INDICATED BY ADVANCES IN SCIENCE.

United States Mail Bags, to be Transmitted on Electric Trolley Wire—A Novel Ship Carrier—New Method of Cleaning Clothes.

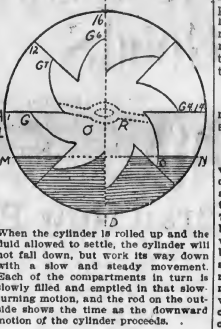

THINK OF THE mails being shot at all! Lightning speed over the roof of Chicago! That's what Richard E. Sherman says can be done, and Postmaster Heston is his convert, says the Chicago Tribune. If the weather ever moderates, it will convince skeptics within two weeks. If the experiment to be tried proves a success, the possibility of the scheme will be large in the provision of improvement in city and suburban mail delivery and the transportation of mails to and from the postoffice to the railway stations. It is within the scope of the Postmaster Heston's plans, that all the mail wagon service may be abandoned and converted electric current substituted. The scheme is the invention of Richard E. Sherman, a Chicago electrician. His plan is to carry mails through the roof of the tops of buildings by means of electric cars traveling on a wire cable. The inventor says he has discovered a new principle of harnessing the electric current without the use of a return wire. He declines to explain it, but the peculiarity of his motor, which, he says, does away with the necessity of a return wire or storage batteries, has been discussed in convincing the postal authorities that his plan is practical, and all is ready to put the experiment to a test operation as soon as the weather moderates enough to permit its construction. Permission was granted by the council last Monday night to string a wire cable from the government building to the Illinois Central station at Twelfth street on which the initial tests are to be made. The advantages gained by the mode of transportation, if it proves a success, are many. The greatest argument in its favor is the saving of time. It is said the mails will be transported on the wire from the post office to the Twelfth street station in five minutes with the carriers traveling at one-fourth speed. The schedule time for the wagons is now twenty-seven minutes. The inventor says his motor will run at a speed of 100 miles without attention except to start and stop it, and the cost of construction for the complete line is \$100 a mile. If the experimental line works satisfactorily the postal authorities say lines will be built to all suburban and suburban towns. It is also suggested that the same service may be eventually extended between the larger cities. The scheme, however, is not so near in the future as the suburban plan, as a question of safety of the mail in transit would arise.

Street Car Transfers in Baltimore. The transfer system among the street railroads of Baltimore has grown since its introduction in 1882, and free transfer is now issued at nearly forty different points; in some cases it is possible to ride twenty miles for a single fare. As a rule, in any city transfers are confined to different lines of one company; but at a crossing of the Lake Road, Elevated and Central roads, transfers are given from one to the other. A station is located at the junction and the agent provides the transferring passengers with a ticket. At the end of each quarter officials of the two companies meet, exchange coupons and divide equally the residue of fares collected by one company over the other. It is a very simple arrangement, and has resulted in greatly increasing the traffic of both roads.

Novel ship armor. A new method of armor of war ships, radically different from that now for use, has been proposed and has been patented by an English inventor, W. T. Crooke of Birmingham. Instead of affixing armor plates to the sides of the ship, he would make it structurally separate and would practically hang the armor plates to the sides of the ship. The armor plates and other ancient sea fighters were accustomed to hang their shields over the sides of their craft, or were constructed as torpedo netting in hung out from the modern war ship. His method of construction would give his ship three skins, with water-tight compartments between, and he claims that the outer two might both be pierced, and the ship would still be safe, owing to the stability, safety or fighting power of the ship. The device is illustrated in the accompanying cut of a cross section, showing the three skins, A, B, and C. The outer skin is the armor, composed of the heavy armor plating. A. The middle skin is the inner armor plating. B. The inner skin is the inner armor plating. C. The inner skin is the inner armor plating. D. The inner skin is the inner armor plating. E. which is free to rise within this space to the crown M, some distance below the water line. The armor below this point is therefore an entirely detached shell, while in the whole of the nature of a shield, practically detached from the body of the ship and extended at some distance from its real sides. The inner skin C is therefore almost entirely independent of the two outer thicknesses, A and B. The inventor's value anywhere, except, perhaps, as elements to be considered in estimating damages. In breach of premises suits, says the New York Herald. Why a man should consider it more or less obligatory on him to give a gratuity to the man who waits upon him, be he white or colored, while his conscience relieves him of all such obligations when a woman performs a similar service for him, is one of those mysteries which the feminine mind is incapable of solving. I have conversed with several "waitresses" on the subject, and they have always told me that they would infinitely prefer dimes to smiles, more especially as their pay is so small that the problem of making both ends meet is for them a particularly hard one. It may be said in defense of masculine custom in this matter that the conduct of the recipients of these alms, or demonstrations, would justify the opinion that they prefer them to small pecuniary emoluments, but the answer is that the girl employed in a restaurant who doesn't smile or retain her position, is a complaint of a customer's familiarity, instead of causing him to be rebuked, would more likely result in her own dismissal. It isn't slow for waiting that she is paid. She is expected to make herself "attractive." There are many of an economical turn of mind whose patronage of restaurants where women are employed is largely based on the fact that such places they can refrain from "tipping" without being suspected of meanness. And a dime saved is 20 cents earned. But, all the same, a woman who waits on table in a restaurant is just as much entitled to a "tip" as a man, and the fact that she doesn't get it is only another link in the chain of evidence which shows that the average man will always take advantage of a woman in pecuniary matters if he gets half a chance. That is to say, for doing the same thing he will always pay a woman less than he will a man.

Clock Without Wheels. A mysterious clock was found in a private collection by Director Dray of the observatory of Montsouris, France. It is described in a treatise on clocks published in the seventeenth century by Father Alexander, a Benedictine monk. The clock on the outside looks like a little wooden cabinet; on the right side the gears are carried along the edge in a vertical line, representing the hours from 6 a. m. to 12 midnight. A small metal cylinder with a rod through its center is supported by two pieces of string, and by turning the cylinder up the two pieces of string will roll up on the rod. The interior of the cylinder is divided into eight compartments of even size. These compartments communicate by very minute passages—1, 11, 12, etc.—with those next to them, and by canals—13—with those on the opposite side of the cylinder. The working power is furnished by a specially prepared fluid is filled into the cylinder up to the line M-N.

When the cylinder is rolled up and the fluid allowed to settle, the cylinder will not fall down, but will rise way down with a slow and steady movement. Each of the compartments in turn is slowly filled, and the cylinder is slowly turning motion, and the red on the outside shows the time as the downward motion of the cylinder proceeds.

How to Clean Clothes. The American Inventor tells how to do it as follows: Take a piece of clean, shiny old coat, vest or pair of trousers of broadcloth, cassimere or diagonal. The seamer makes a strong, warm suds and plunges the garment into it, squeezes it up and down, rubs the dirt places, and if necessary, puts it through a second time; then rinses it through several waters and hangs it up to dry on the line. When nearly dry he takes it down, and with an hour or two and then presses it. An old cotton cloth ball on the outside of the coat and the iron passed over that until the wrinkle are out; but the iron is removed before the steam escapes to rise from the garment. The wrinkles are removed by laying wet cloth over them and passing the iron over that. If any wrinkles are seen, they are treated as the wrinkle are—the iron is lifted while the full cloud of steam rises, and the garment is pressed. Clothes should always have suds made especially for them, as it is not that which will clean, but the action on the water and will cling to the fabric. In this manner have known the same coat and trousers to wear a new time and time again, and have all the look and feel of new garments. Good broadcloth and its fellow cloth bear many washings and look better every time because of them.

Decomposition of Glass by Water. From a long series of experiments of his own on these subjects, and from the work of other chemists, he draws the following conclusions: (1) The weathering of glass is caused by the decomposition of silicic acid in the presence of moisture. The carbonic anhydride of the air does not act directly on the glass, but only on the silicic products of the aqueous decomposition. (2) Ery carbonic anhydride is without action on dry glass. (3) There is no proof that water can be retained by glass, except when it enters into chemical combination therewith. (4) The weathering of glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (5) The chances caused by weathering are comparatively slight with good glass. (6) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (7) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (8) The chances caused by weathering are comparatively slight with good glass. (9) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (10) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (11) The chances caused by weathering are comparatively slight with good glass. (12) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (13) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (14) The chances caused by weathering are comparatively slight with good glass. (15) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (16) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (17) The chances caused by weathering are comparatively slight with good glass. (18) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (19) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (20) The chances caused by weathering are comparatively slight with good glass. (21) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (22) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (23) The chances caused by weathering are comparatively slight with good glass. (24) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (25) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (26) The chances caused by weathering are comparatively slight with good glass. (27) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (28) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (29) The chances caused by weathering are comparatively slight with good glass. (30) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. (31) Glasses (time glass and the decomposition of glass by water are similar processes, and are both preceded by the taking up of water into the glass surface. (32) The chances caused by weathering are comparatively slight with good glass. (33) The action of water on the weathering of glass is only temporarily more rapid than it is on new glass. Those who never read the advertisements of their newspapers miss more than they presume. Jonathan Kenison of Holin, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how prominent German citizen Dr. R. C. Hardwick had been cured of rheumatism by a medicine, and to use his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. They boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle and it cured them in a week, 50 cent bottle for sale R. C. Hardwick and Ed. R. Bogard, Lafayette, etc.

Philosophy teaches us to bear with calmness the misfortunes of our friends.

Homelessness is the best guardian of a young girl's virtue.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by R. C. Hardwick, Hopkinsville, Ed. R. Bogard, Lafayette, Ky.

There is no game of chance more hazardous than marriage.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds. Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned there is nothing so good for colds, coughs and whooping cough as this remedy. It cures almost quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by R. C. Hardwick and Ed. R. Bogard, Lafayette, Ky.

The world ceases to be a pleasure when it ceases to be a speculation.

Foley's Sarsaparilla combines the most searching remedies scientifically prepared to extract the utmost value from your system. It is a sure and safe way to get rid of all the impurities of the blood. Trial size, 50c. For sale by C. K. Wylly.

Love is a torrent that one checks by digging a bed for it.

Unfortunate People are they who are afflicted with pimples, boils, carbuncles, running sores, ulcers, scabs, cancerous or syphilitic affections, or any blood taint whatsoever, and do not try a 50c. bottle of Foley's Sarsaparilla. For sale by C. K. Wylly.

Love is the beginning, middle and end of everything.

Everybody will be interested in what is said about Olive Branch in another column. It costs only \$1 a month.

All bow to virtue and then walk away.

Have you ever noticed how your system seems to crave special assistance in the spring? The help required is given by Hood's Sarsaparilla.

The worst of all misalliances is that of the heart.

Have You Had the Grip? If you have, you probably need a reliable medicine like Foley's Honey and Sore Throat Cure to stop the racking cough incidental to this disease.

What a husband forbids a wife does.

Important to Invalid Ladies. Dr. Kilmer's Three Doctors in six years, treatment could not do what a few boxes of Olive Branch have accomplished. It has cured me of ulceration of the womb.

Miss Eva Day, Bayard, Essex Co., Del. For sale by R. C. Hardwick.

One worries delightfully with women.

Dr. Kollock in Nashville. The attention of the reader is especially called to the card of Dr. Matthew Henry Kollock, which is in another column. He is a native of No. 10, (1889) of prominent Southern family of Savannah, Ga. He is quoted as a standard authority by the "Encyclopaedia Britannica." He is the "largest and most important work in the world," being in 26 volumes, each the size of a large church Bible. He is noted as a discoverer of the active principle of the "hemlock," a specific for neuralgia of the face and head. The Doctor has made many cures, especially at Hot Springs, Ark., given up by other physicians.

HE GOT A BRIDE.

But Not the One for Which He Had Taken the License.

Bernard Nicora, a farmer aged fifty-five years, had the misfortune to lose a prospective bride on his wedding day, says Deseret Evening News. He also had the good fortune to win another bride the next day. In looking over the field, he seems to think he did well by having a quarrel just as he was about to be married. He lost an old bride and won a young one. One morning the farmer went to Lincoln in order to get married. He called at the office of the county clerk and announced that he was going to be wedded and wanted a license in a hurry. He got it, and again two days later stepped up to the marriage license counter. "I want to pay for another marriage license," said he. "You must get a divorce first," replied Deputy Spaulding. "Oh, no," said the farmer; "you see, I have not my bride yet. I have made a new one." The man from Lincoln then explained, and told him he had mislaid an old bride for a young one. He had made all his arrangements to wed Miss Dalecho, but they had a row just before the ceremony. The lady desired to impose certain conditions on her prospective husband, and he would not submit, and there was a quarrel. The wedding was declared off. Farmer Nicora was and for a time, but he had come to Oakland to get a new bride, and he was not going home empty handed. While he was justling around town he was introduced to Miss Ernestine Merchanda, a young lady of twenty-two years. He told her of his predicament and prospects, and proposed marriage to her on the spot. To his surprise and gratification he was accepted, and the wedding was arranged for at once. The young lady had no conditions to impose and this suited the farmer all right. It was agreed that the nuptial knot should be tied in a few hours.

What is a Guarantee?

It is this. If you have a cough or cold, a tickling in the throat, which keeps you constantly coughing, or if you are afflicted with any chest, throat or lung trouble, whooping cough, or if you use Ballard's Horehound Syrup as directed, giving it a fair trial, and no benefit is experienced, we authorize our advertised agent to refund your money on return of bottle. It never fails to give satisfaction. It promptly relieves Bronchitis. Trial bottle at R. C. Hardwick's drug store.

There are some prepared to say palatableness of venison depends upon the sauce.

It is not impossible some to their breakfast to read that Homer was fond of sausages.

Current jelly and port wine sauce for roast venison has to be made "just as it is," or else it is not good, and only fit to go out of the window.

If there is any part of a turkey a French cook cannot utilize for food it must be the neck. Even the feathers are serviceable as a range door. English muffins are now declared to be made better here than in the old country. Those as heavy as a paper weight are, and are served to the guests. Cheese sticks, that used to be the thing at afternoon tea, are seldom served these days. A caterer says "the women-folks got tired of 'em."

Ballard's Snow Liniment.

This invaluable remedy is one that ought to be in every household. It will cure your rheumatism, Neuralgia, Sprains, Cuts, Bruises, Bumps, Burns, Frost-bites and Erysipelas, Sore Throat and Sore Chub. If you have lame back it will cure it. It penetrates to the seat of the disease. It will cure joint and muscle aches and all other remedies have failed. Those who have been crippled for years have used Ballard's Snow Liniment and thrown away crutches and been able to walk as well as ever. It will cure you. Price 50 cents. Free trial bottles at R. C. Hardwick's drug store.

At an elevation of 15,565 feet above the sea level, near the Peruvian Andes, a railroad it was discovered that 100 men were required to do the same amount of work that fifty men would do on a plain.

A curious custom of Seoul, Korea, is the law which makes it obligatory for every man to retire to his home when the huge bronze bell of the city has proclaimed it to be the hour of sunset and the time for closing the gates. No man is allowed in the streets after that hour under pain of flogging, though the streets are allowed to go about and visit their friends.

A Sound Liver Makes a Well Man.

Are you bilious, constipated or troubled with jaundice, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, indigestion, hot dry skin, pain in back and bowels, or any of these ailments? If you have any of these symptoms, your liver is out of order, and your blood is slowly being poisoned, because your liver does not purify properly. Heberline will cure any disorder of the liver, stomach or bowels. It has no equal as a liver medicine. Price 50 cents. Free trial bottles at R. C. Hardwick's drug store.

MONTE CARLO'S PATRONS.

The Ladies Are the Most Profitable Customers at Gambling.

The English, the Americans and the French are probably the most remunerative patrons of Monte Carlo, and it is a Switzerland and not to the frontier of Italy that the vast majority of pleasure-seekers repair in summer, says the London Telegraph. Again, at the very period when the Casino people wish to attract English visitors to the Riviera the London season is at its height and the preliminary season has not yet shown no sign of waning. The Atlantic steamships are bringing to Europe every day a large number of American tourists, and their transatlantic voyages usually pass the summer in London or Paris, or at English or French watering places, and await cool weather before they journey down south. Another suggestion made to the perplexed administration is that a club for the use of gentlemen visitors should be established in connection with the Casino, it being proposed to utilize for this purpose the premises of the Hotel Monte Carlo, but it is difficult to see that the financial prospect of the Casino company will be increased by supplementing the existing trip with a club. Visitors who are coming to Monte Carlo can easily become members of the Cercle de la Mediterranee at Nice, and there all is not the contributions of the scientific operators at roulette or noir, who despite the merry but frivolous roulette, that are the most lucrative customers at the Casino. At present it is really possible to make a fortune in Monte Carlo. Indeed, to break the bank—since Napoleon's dictum of the big battalions eventually winning still holds good—ways will lead good—but enough to cause the administration to close a particular table to a roulette house. A roulette, however, for the winners of a considerable amount there are possibly 100 who become or later, will be utterly and hopelessly deceived, or "blown out." Moreover, in modern times it has been the lady punters who, in the aggregate, are the most successful gamblers, and it is not that the ladies often go to the maximum of stakes to be realized—they are in general too timorous for that—but they play recklessly and they continue to play until they have lost their last franc piece on the tapis vert, and a club from which ladies were excluded would be bereft of the contributions of the sex who are, as gamblers, not less adventurous and perhaps a little more incorrigible than men.

BOGUS BEER AND SMOKE.

A Worldly Criticism of Two Great Reformatory Agencies of the Age.

It is said that the non-alcoholic imitation of beer which Bishop Fallows is selling in his Chicago church saloon looks like beer, tastes like beer, foams like beer, and has so many of the other qualities of beer that it is calculated to deceive Hans Breitmann himself. This being the case, is it moral? When Maubrey Sellers strove to produce the sensation of warmth and cheerfulness by putting a lighted candle in the stove was he truthful and heroic or mendacious and cowardly? The question is not a light one. It goes deep. In addition to Bishop Fallows' imitation beer have thrust upon us an alleged agency of reform a patent pipe which can be loaded with tobacco and smoked in the ordinary way except that the smoker, who seems to be drawing deep draughts of consolation and philosophy from it, is getting a single whiff of the reality. He is merely deceiving himself with a delusive dream of comfort. Is this reform? If it is there is reason for believing that hades will be the most thoroughly reformed place in the universe, for there, according to the version of a sacred poet whose scriptures have the authority of venerable antiquity, men as shadows will include the shadows of their unimpaired habits, drinking church reform beer and smoking patent reform pipes forever and ever without the possibility either of satisfaction or satiety. And after having tried this for only a short time one of the greatest dignitaries of the place declared that he would rather be a tramp or a Chicago broker on earth than the most respected and honored potentate in all sheol. The mocking reality of such pinchbeck imitations of alluring vices as the pipe pipe has something infernal about it. Homer was not mistaken on that point. There can be no virtue in pretending to be delightfully vicious. The way to reform is to reform. There is no other way.

A PECULIAR RUNAWAY.

Tried to Swim the Monongahela Hitched to a Sleigh.

It was the experience of only a horse, but it was such as to raise the hair of all who witnessed it, says the McKeesport Times. The animal belonged to Jacob Kell of Market street and, after running off and swimming half way across the river, it was returned to its owner uninjured. Yesterday afternoon Mr. Kell, who is a large coal shod, and a sleigh and went to the residence of John Sinn in Lincoln township. He tied his horse in a large coal shed, and the animal on the inside, commenced pitching the coal through a window in the shed. Mr. Kell's horse frightened, leaped and started for home. Up hill and down hill it dashed at a reckless pace, righting numerous pedestrians and overturning a horse. The horse finally reached the Monongahela river and, not being daunted, started in to swim to the other side, dragging the sleigh with it. The river was full of ice, but the animal swam out into the current and had succeeded in getting about half way across, when it became chilled by the icy water and turned back. It reached the shore in safety and was conveyed back to its owner. A peculiar feature of the runaway was that the sleigh and harness were not damaged to any great extent and the horse escaped injury, although exhausted by its wild and furious chase.

One Hundred Years of Law suits.

The first real estate entry of record in Jackson county, West Virginia, was made Jan. 2, 1795, and is of 150,000 acres of land to Paines Taylor of Waterbury, Conn., who was the grandfather of Paines T. Berman, the great showman. The property has been in litigation almost ever since.

Valuable Town Lots For Sale.

KUTTAWA, KY., MARCH 14, 1895.

DEAR SIR—

Permit me to call your attention to a grand and peremptory sale of town lots in Kuttawa, Ky., on May 15, 1895. In order to close out finally all of my real-estate interests in this most admirably situated, healthy, picturesque and flourishing of little towns of all the country, I will sell at public auction at the place and time named (to be continued from day to day if necessary), to the highest bidder, every lot which I now own upon the following streets, their cross streets and alleys, as shown by the recorded plat of said town, viz: Ash, Poplar, Maple, Hazel and Hawthorne Streets, reserving for future disposition only the few lots now remaining to me upon Oak Street.

I have resolved upon making this sale, which will conclude my proprietorship of Kuttawa, this darling little, but lovely offspring of my own dreaming brain, for the following reasons, viz:—

After laying out this town I adopted a system of long leases, with the option to purchase the lots on long credits, with simple interest, of renewals of the terms, &c., for the purpose of inducing non residents to settle and build up my town, then in the brush. This system has completely filled its original purpose. I now find myself the owner of a number of lots (about 210,) and at my extreme old age and in my present actually low state of both health and finances, I am compelled to do at once that which I alone can well do, for my executor and heirs (many of whom are minors) would be unable to legally and securely perform this duty in my stead. This being the case I have no choice in the matter.

That this selling out of so large a body of property at this period, being the very bottom of these the hardest times ever suffered in America, must make it the very most possible time for selling is a dead certainty which I have as much sense to see as others. But the very fact that these, the very hardest of times, would make it the worst time to sell, must necessarily make it the very best time to buy. Moreover, the already visible dawn of a brighter and better day is beginning to streak with its clearing rays of light our so long gloomy sky. The good time coming is even now showing itself to be close at hand.

And another signal advantage to the buyers of this property at this crisis consists in its immediate and immense enhancement in values from this unrivaled system of water works now fairly established upon it. It is self-evident that their cheap and super-abundant supplies of the purest spring water, not only for all domestic and manufacturing purposes, but also for suppressing or extinguishing all conflagrations, and of reducing to their minimum, or else of abolishing our insurance rates, must not only greatly increase the comfort and health of our citizens, but also at an equal pace enhance the values of their investments, and moreover must strongly induce the best immigrants to this highly-favored Kuttawa.

TERMS OF SALE.

Upon all sums of \$25.00 and above, a cash payment of one-sixth part will be required on the delivery of the deed in fee simple, with general warranty and release of dower, and the remainder of the sum of the purchase money will be divided into five equal yearly payments, and upon all sums of less than \$25.00 a cash payment of one-third thereof and two equal yearly payments one-third each. All deferred payments to be secured by negotiable promissory notes secured by lien upon the lots conveyed.

A liberal discount will be made for all total or partial payments in cash in lieu of these credits. Come one—Come all—As individuals, Corporations or Syndicates, and seize this grand opportunity of investment or speculation.

Charles Anderson.

FACTS IN CRYSTALS.

Three hundred indictments have been returned for illicit whiskey selling in Logan county, W. Va. Jacksonville, Fla., has completed a city census and finds her population to consist of 15,000 blacks and 11,433 whites.

In two years in North Carolina there were 125 trials in the courts for murder, and there were but three hangings.

Students of Stanford university have subscribed \$300 for a "noise-making machine" to use at athletic meets. It is a steam horn blower.

Reuben K. Hunt of Vinings, Me., was the leader in a movement for a new road to the cemetery. His was the first funeral that passed over the road.

The tax of one guinea on the use of hair powder in England was repealed in 1890. It was first imposed in 1795, and at one time yielded \$20,000 a year.

Last year counted thirty-four victims of the Brooklyn trolley cars. Since the inauguration of the system, two and a half years ago, ninety-two persons have been killed by them.

Three children of Edwin Winkler of Wheeling died within an hour of each other of diphtheria and were buried in one grave. They were six, eight and ten years old respectively.

The most disgusting theatrical troupe in the country is one that stopped at Smyrna, Del., to give a performance, but didn't because only one person appeared to purchase a ticket.

Conceit is a low ebb in Boston. A highwoman there that had robbed a woman of her property and money wouldn't even return her car fare to get home with. He said she looked strong enough to walk.

A prominent young woman of Lost Creek, Pa., called at a butcher shop and noticed the carcass of a hog weighing 157 pounds, and after some remarks about it between herself and the proprietor she latter said that if she would wheel it to her home she might have it free of charge. Although her home was two miles distant, she accepted the offer and accomplished the feat in fifty-three minutes.

GASTRONOMIC CRAPS.

Romant plum pudding fried is almost as rich as the Rothschilds. Doughnuts and crullers have been served with success at some afternoon teas.

The frying pan is responsible for at least 5,000 ailments that flesh is heir to.

Cold slaw with a rich sauce will make consumers believe they are in a palace.

What used to be Russian salad is now dubbed "czar salad" on the bill of fare.

Love begins too well to end well.

Judge Jno. W. McPherson and wife are at Dawson.

Mr. John Johnson and wife, of Grayson, are visiting relatives near the city.

Mr. S. S. Lander, of Clarksville, Tenn., was in the city yesterday.

Grange Notice

There will be a very important discussion by the members of Casey Grange next Friday, Apr. 19, at 2 o'clock, one in which all farmers are interested, viz: Do commercial fertilizers pay, manner of using etc. We extend a cordial invitation to all farmers whether members of the order or not to come and participate, as the questions will be discussed with open doors.

T. L. GRAHAM,
Lecturer.

Stealing Tobacco Canvass.

Oak Grove, April 9, '95—The farmers in this section are greatly annoyed by the disappearance of their plant bed canvasses. Messrs T. A. Williams, W. D. Elliott and W. A. McKenzie are the heaviest losers. As there is no way to identify one can raise from another there is no way to get a clue to the rogues. However, if they should catch one they would make it very interesting for him.

Ravages of the Army Worm.

The much dreaded army worm has made its appearance in Warren county, and the farmers are becoming alarmed, and are making ditches to keep them from spreading over the farm. It is quite an unusual thing for them to appear this early in the season and especially in such large numbers.

The Evolution

Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. To get the true remedy, see that it is manufactured by the California Figs Syrup Co. only. For sale by all leading druggists.

Take Vitalia Liver Pills.*

Morgan Denmark
and Monarch.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not be misled by any inferior imitations.

FURNITURE.

MR. FRANK MILLER.

The Famous Rider a Feature of the Walter Main Shows.

Mr. Frank Miller, who is one of the notable features with The Great Walter L. Main Shows is not only the best male rider the world has ever known but is an artist with an international reputation. He has appeared before the crowned heads of Europe, and would never permit his name to be identified with any but the very best tented amusements. Mr. Miller is the embodiment of grace. His work is so cleverly done that it has the appearance of excessive ease. He springs upon the back of a swiftly running horse as readily as the ordinary man mounts a chair. His thrilling riding creates a furor. He conquers his audience by the mastery of his art. Long after the show has come and gone, admiring thousands dilate on this marvel of performance. This worthy rider is in worthy company. He is surrounded by the strongest array of American and European equestrian stars ever gathered together. Innumerable great features enchain the attention of the audience. Schools of educated ponies, goats, pigs and baby elephants; a double troupe of royal jockeys; thrilling aerial acts by the greatest of aerial performers, Strik and Zeno and many others; equestrian acts by more than a score of fully celebrated lady and gentleman riders; arent sports and pastimes of ancient Rome together with a real Roman hippodrome. The only elephant riding lion and numerous other features. The entire show will exhibit at Hopkinsville, Saturday, April 20.
